Applicants for the **H2Opportunity Undergraduate Scholarship** must attach an essay (not to exceed 1,500 words) that describes the applicant's interest in, and intended course of studies leading to, a career in the water profession.

Applicants for the **Philip R. Karr, III Scholarship** must attach an essay (not to exceed 1,500 words) that describes the applicant's professional goals in environmental engineering, water resources, or related fields, and the applicant's intended use for the scholarship.

Other comments: _____

I understand that this award is to be used toward my continuation of studies, including tuition, books, or other direct educational expenses. If it is not used for this purpose, it will be returned to the applicable Scholarship Fund.

Signature of Applicant

Date

NOTE: You must include with this application a copy of your SAT or ACT scores, and high school and any post high school grade transcript(s). Scores from the Writing section of the SAT are not considered in the application process. Feel free to include any additional supporting information. Incomplete applications usually result in lower ranking due to lack of information.
